Dear Ms. Rayner,

Thank you very much for your efforts time and considerations for me.

I'm really glad that I could take your classes, because I learned so many things which are essential for being camouflage therapist.

Textbook, videos, slides and hands on practices. Each things stimulated different parts of my brain, so I could catch your knowledge with excitement and joy. Moreover everything you taught me is from your experiences. Thus they are very practical and useful.

Now I'm proud of myself and I'm conscious of my responsibility as the only hope for thousands patients in my country. I'd like to say "Thank you" for my patients who will be helped by camouflage therapy, and also thank your patients who let you do this wonderful contribution for this world.

Sincerely Yours,

Maiko A.
