

Spring 2002

Dear Ms. Rayner,

I felt like the Dermatologic Skin Care Course made me smarter and the Skin Care Management for Menopause & Hormonal Dysfunction training made me wiser. These courses alone have given me the confidence to go out on my own. Thanks again for sharing your vast wealth of knowledge and expertise.

Denise M. - Esthetician & Salon Owner - West Trenton, New Jersey

"The day I discovered the Rayner Institute's ad in Skin Inc. magazine was a very important day in my life. I quickly signed up for the Dermatologic Skin Care long distance program and learned valuable information to use in my daily esthetic practice starting from the beginning of the first module!

I've been a continual student at the college level throughout my adult life and usually found studying to be drudgery. However, I actually looked forward to my study time while taking your course. Also, your support is like non other -- I can't thank you enough."
