Dear Mr. McGreevy:

This is to Inform you that Victoria Rayner arranged for my placement at the UCLA Medical Center Division of Dermatology under Ronald Moy, M.D.

Victoria was the Director of the Clinic as an extension of the U.C. San Francisco Clinic. I was the Clinical Cosmetician at UCLA for four and **one-half** (4 **1/2**) years. Victoria made all the arrangements with Dr. Moy in setting up the **clinic**. She also contacted companies to ask them to make donations of products and supplies to the clinic.

Having experienced and worked in the University of California system for those 4 **1/2** years, I can state unequivocally that one does not just walk in off the street and start a clinic in any **medical** center, let alone one as well-known and highly respected as is the UCLA Medical Center, unless one's credentials are IMPECCABLE. These Centers intensely examine the background of anyone before allowing that person to be a part of them.

I hope **this information** is of assistance to you. If you need anything further from me that will aid you, please contact me at the address or numbers found in the letterhead above.

Sincerely,

Burse Adams
Clinical Cosmetician
