Dear Ms. Rayner:

First, let me apologize for the delay in writing to you.

In short, I would recommend you to any attorney seeking a consultation or an expert in a disfigurement case, no matter what the cause. Specifically, I found you to be a very pleasant, outgoing lady who testifies in a very compassionate yet knowledgeable fashion. Overall, I believe you made a very good witness.

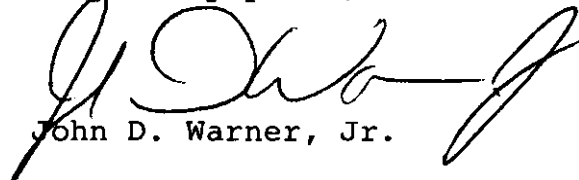

In particular, I found you compassionate when it came to the two young boys that were involved in this case, yet knowledgeable and professional when it came to examining them and testifying in deposition with respect to their disfigurements and what you could do to minimize or camouflage those disfigurements.

I am attaching herewith a copy of your deposition summary, which I sent to my client in the subject case. Hopefully, this summary will assist you and anyone evaluating the need for your services in the future.

Please do not disclose the case that you were involved in here in St. Louis but in the event that you need a recommendation, please feel free to use my name. I will not hesitate to give you the highest recommendation possible.

Hopefully, we will be able to meet again soon and possibly in San Francisco, although the likelihood of that happening this year is diminishing rapidly due to other commitments here in St. Louis.

Very truly yours,

John D. Warner, Jr.
