Dear Mrs. Rayner,

Many thanks for your FAX.

the problem of Camouflage is a very important problem and, as you plan to come in France in December 1994, I suggest that you could make a conference during the "Journées Dermatologiques de Paris" which is a big annual meeting with 2600 dermatologists coming from many countries all over the world.

In 1994, the organizer of les "Journées Dermatologiques de Paris" is Professor **Stephan BELAICH** - Dept of Dermatology - Hôpital Bichat - 48, rue Henri Huchard - 75018 PARIS (Tél. 40 25 84 24 FAX 40 25 83 05). You could contact him to present yourself and propose to give a conference.

If Professor **Belaich** does not agree, we will find another organization. Unfortunately, I cannot see you from September 10 to September 15, but my collaborator, Prof. Rachel **Grossman**, agrees to meet you during this period, but not on September 16. She will contact you.

Best regards,

**Professeur Louis DUBERTRET**
